

# Our Challenge: Go Druid, Today!

[goDruid.com](http://goDruid.com)

Just before we start:

Who were the Druids?

- *"... better than a prophet, more knowledgeable than every druid, a king who was a bishop and a complete sage."*

*In ancient times, a Druid was a philosopher, teacher, counsellor and magician, the word probably meaning 'A Forest Sage' or 'Strong Seer'.*

# What do we mean by... Being a Druid, Today?

*How do we reinvent the sense of self sufficiency and environment worshipping and 'off the grid' nature of the Druid?*

With the marriage in the 21<sup>st</sup> Century between the **Earthship** and the **Blockchain**, we are working to bring about a 'caveat emptor' revolution vying to make this a truly sustainable and prosperous century.

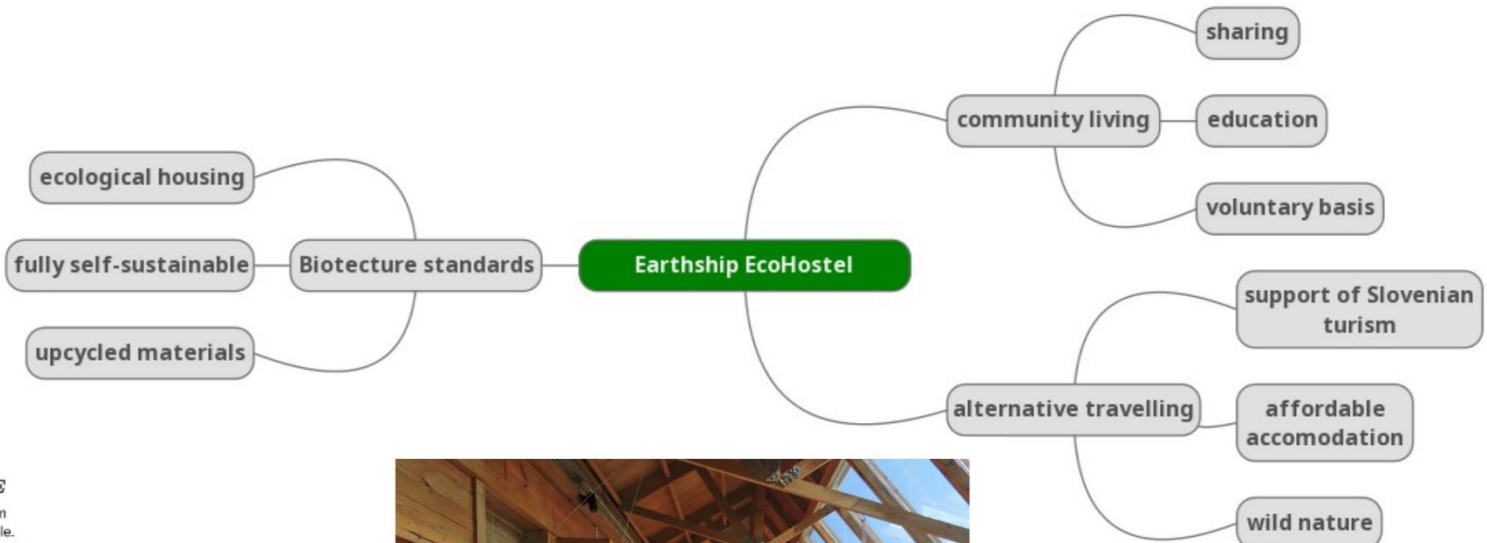

# About the Earthship...

- Imagine a house, a hotel, a hostel...
- *That will be your guarantee at all times your electric supply....*
- *That will be your food bread basket and water crest and pharmaceutical provider...*
- *A building with zero to no carbon footprint – and entirely made from recycled materials – entirely spawned from crypto investment...*

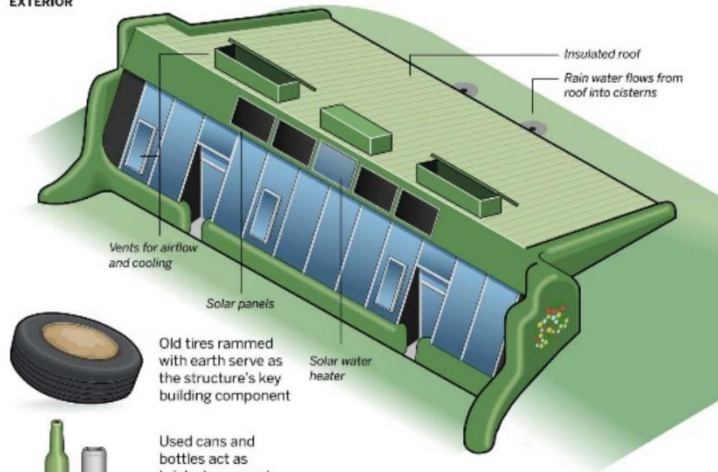

- ***Welcome to your brand new Earthship.***

# Our diagram of Earthship products.

**BETTER LIVING THROUGH GARBAGE**  
 Earthships are self-sustaining homes constructed from as much locally-sourced, reclaimed material as possible.

**EXTERIOR**

Additionally, concrete and wood are used extensively

# The intersection: goals & vision

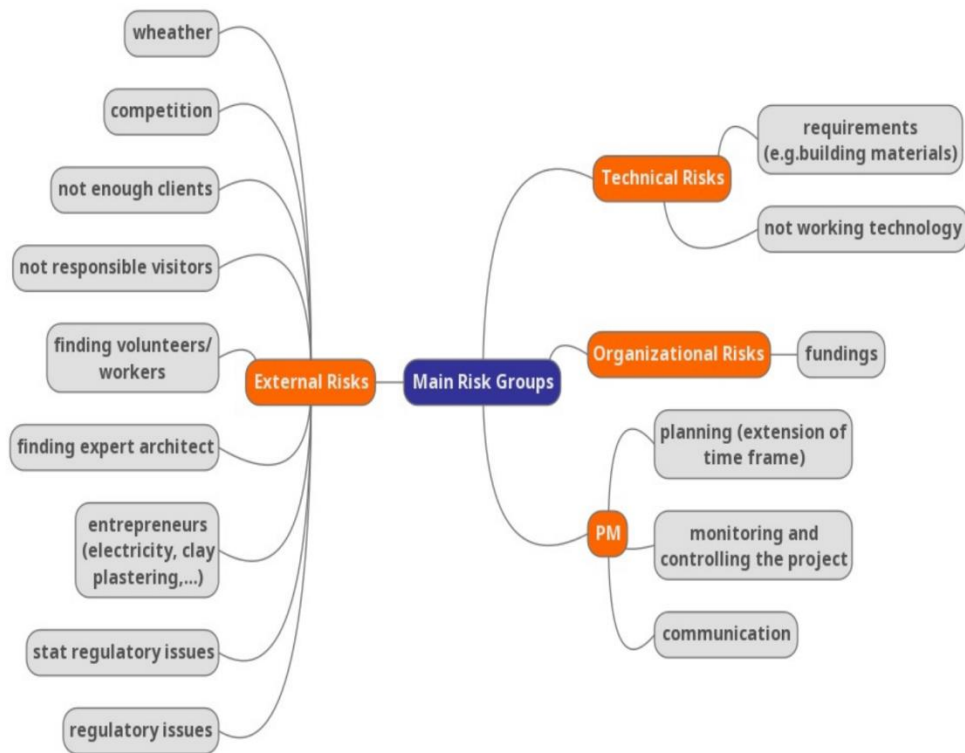

- Create a **clean**, audited financial base – completely uncorrupted by big corporation strings attached.
- Create a fully decentralized medium of **ownership** ‘open source’ in the implementation, through Ethereum blockchain based cypto reliant in smart contracts
- Create a glue that will hold together, in free **trade** and cooperation, a Worldwide community of pioneers,

# The role of Blockchain

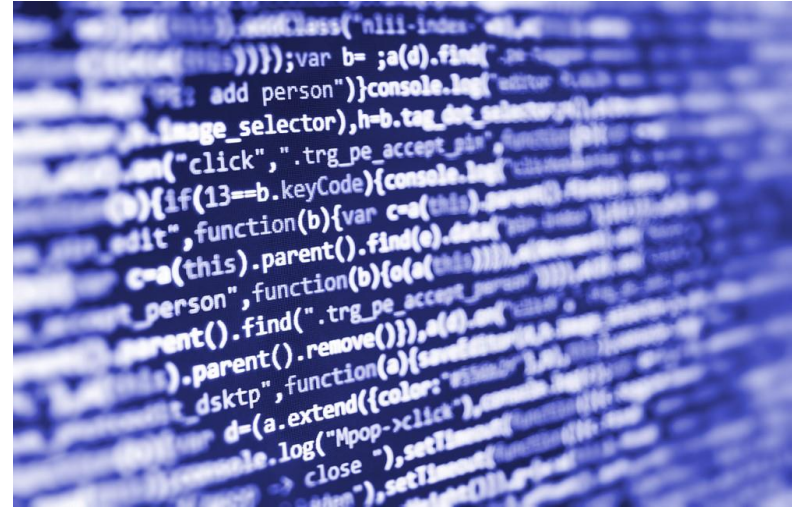

# Finance & Risk Metrics...

- *Accepted currency: ETH, BTC;*
- *Soft Cap: \$250 000 (proof of concept – first project austere budget);*
- *Hard Cap: \$2 500 000 (first five Ships);*
- *Fundraising period:*
- *A multi – pronged ICO spanning pre and post construction of the first Ship - 2020/2022 )*
- *ICO will continue till hard cap is reached.*

# Societal Goal - The big dream

- *Create, through the free initiative of consumers - communities open to permanent residency, or sporadic hosting (hostel & hotel), located all throughout the World - that will act as catalysts of radical **change of consumer choice patterns:** taking more environment friendly choices – as well as the inception of **medium of trade: crypto** (goDruidcoin), *proving the blockchain future as reflected in the simple aspects of life.**

Now go, Go! *and change this World.*
